

Easy Fundraising through the Web

The club have an account with Easyfundraising and it is a great way for the club to raise funds by doing nothing other than you registering with them and making City of Coventry Swimming Club your cause!

How it works

There are a couple of quick things to tell you before you start:

- Our unique **easyfundraising** URL is <http://www.easyfundraising.org.uk/causes/coventryswimming>. This is the link you need to click on to register with Easyfundraising to support us.
- To raise funds through your own personal shopping, just log in before you start shopping, using the username and password you set up, and up to 15% from each purchase you make will be donated to **City of Coventry Swimming Club**.
- Don't have any worries; there is no way of the club seeing what you have bought or how much you have spent. The club just get a total of how much all contributors make on a monthly basis and also a grand total since the account has been opened.

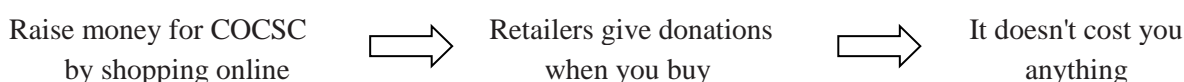

An alternative to Google which will raise further funds!

Take a few minutes to have a look at our **easysearch** page. Every time you search the web with **easysearch** instead of Google, funds are raised for COCSC. You can raise around £20 a year by just searching 10 times day. [Click here](#) or type in <http://coventryswimming.easysearch.org.uk> to see our unique **easysearch** page and save it in your favourites.
